

**e commerce**

E-Commerce Websites

## Price List

Shopping basket or e-commerce websites are often brought to us because the companies who started the work have got into hot water and cannot finish them. Alternatively, some clients want us to start from scratch. These are two ways to deal with this. We charge a day rate to fix an already-started site or we work on a fixed project price worked out on the number of resources and the day/month rate for those resources. Team rental is often a cheaper way to do this where you hire a team. Prices below are indicative only depending on the complexity of the work

### **Short Term Fixing.**

#### **Project quoted as follows:**

Magento site complex	£300/man-day
Magento site or other ecommerce site	£220/man-day

### **Long-Term Hire**

With 60 days' notice of termination

Senior e-commerce resource	£2500/man-month
Experienced e-commerce resource	£1950/man-month
Junior e-commerce resource	£1500/man-month
