

The G&V Product Catalogue

Welcome intermediaries, to the **G&V** product catalogue.

G stands for **Ghost (GD&D)** and **V** for **Vurella** which is our telephony software company which has its own channel to market. The purpose of this catalogue is for our intermediaries to familiarise themselves with everything we have to sell. It is not designed for end users.

Wherever possible, we have included a link to an end user brochure or datasheet for fuller explanations but when it gets tricky, involve us to give you help or simply refer the enquiries to us and we'll take them over.

Either way, it's your sale.

Good Luck!

Cyber Essentials and Cyber Essentials Plus

We hold industry recognised certifications for both Cyber Essentials and Cyber Essentials Plus.

mitigate

Risk Management and
Analysis Software

CALL CENTRE

A call centre with some
remote home workers

**CENTRAL DATA
REPOSITORY**

Manage all of your
documents in one place

migrate

Mandatory registers
for compliance

Video management and
analytics for business

DAC6 Reporting software

Team Rental & Bespoke Projects

Hire people or brief projects

Risk Management and Analysis Software

A perfect tool to record and score your risks, adverse outcomes and mitigation strategies using our UTM algorithm (Urgency to Mitigate) that creates league tables of risks. You can create multiple dashboards with reports by geographic location and department.

from

£1000

per month

<https://ghost-digital.com/GandV>

CENTRAL DATA REPOSITORY

On prem or SaaS model

Manage all of your documents in one place

Usually used for contracts, this data repository will deal with all formats of documents from word and PDF to PowerPoint slide shows. Ideal for all sizes of corporate companies, the system makes housekeeping of documents and retrieval of documents fast and simple.

from

£750

per month

<https://ghost-digital.com/GandV>

e commerce

E-Commerce Websites

Whether its an adjunct to a WordPress site like Woo-Commerce or Shopify or a more complex Magento site, we are able to take over shopping basket sites and enhance them or select the type of site that best suits your needs and create it from scratch.

from

£250

man-day

<https://ghost-digital.com/GandV>

CALL CENTRE

A Call Centre with some remote home workers

Approved and certified by Alcatel-Lucent Enterprise, this is a call centre where the call is delivered to the highest skilled available agent, whether they are at work or sitting at home. It is an offboard and off site solution that will work with any modern telephoneswitch.

from

£100

user

<https://ghost-digital.com/GandV>

Mandatory registers for compliance

A compendium of complaints, undertakings, breaches, risk registers and so on. Each register has a severity, importance or Urgency to Mitigate score so that the company can see which entries need to be dealt with first. Dashboards are also available.

from

£500

per month

<https://ghost-digital.com/GandV>

Business Card Module

SaaS model

Standardise your business cards across the whole of the globe

The larger you are, the more varied are the business cards. The logos are different shades and sizes. The fonts are nearly but not quite similar and the layouts vary from one printer to the next. This module standardises business cards across the company.

from

£500

per month

<https://ghost-digital.com/GandV>

RECORD

On premise or SaaS

An enterprise voice recorder that's PCI compliant

Whether you want to record all calls or simply the ones you choose, this is one of the best call recorders around. It is PCI compliant and allows the supervisor to listen in silently to any ongoing call for training purposes. Its PBX agnostic.

from

£100

per seat
(server not included)

<https://ghost-digital.com/GandV>

CallBilling

A telephone call billing solution

For IT and telephony providers, this hosted software allows Distributors to manage their VARs both in terms of minutes selling (Converting CDRs into bills) whilst converting quotes on tangible stock to invoices on delivery.

from

£200

per month

depending on number of bills/month

<https://ghost-digital.com/GandV>

SaaS model

DAC 6 Reporting Software

DAC6 reporting software to the EU27 tax authorities has been created for intermediaries like law firms and accountants who give advice on cross border transactions.

from

£600

month

depending on number of DAC files/year

<https://ghost-digital.com/GandV>

Training Courses

SaaS model

Learning and Compliance Platform

We have an LMS which can track all formats of documents, along with SCORM and TinCan compliant courses. You can log who has done what and how long each trainee has spent. You can buy it to insert your courses or you can use ours which go from AML and HR to DAC6 and Risk Management.

from

£500

per month
depending on usage

<https://ghost-digital.com/GandV>

Video management and analytics for business

This camera agnostic solution means you don't have to throw away your old cameras. Whether you have 5 or 5,000 cameras we view, record and record on motion only. We have virtual trip wire, ANPR and facial recognition. All housed at our secure datacentre.

from

£5

per camera license
(server not included)

<https://ghost-digital.com/GandV>

Team Rental

How to grow your development resource without hiring

We are a UK Company where 85% of our development salaries are in Lahore. This means that you can engage with us in the UK. There's no difference in quality and communication but a huge difference in price. All dev languages accommodated.

from

£1200

per man month

<https://ghost-digital.com/GandV>

Bespoke Projects

Our bespoke development. Your IPR and source code.

Whatever the project, whatever the development language, we can go from architecture and specification to completed product and implementation, and you both the IPR and source code. So, you get the best of both worlds. The best design and project management from the West with the best software development prices from the East. And no outsourcing.

from

£250

per man day
